Dear Ms. Caruz,

Hi my name is Hector Fernandez and I am in your 6th period Geometry class. A few things I enjoy about your class is the way you teach and how you give open notes for upcoming tests. Learning in your class is very fun and challenging. I have decided to apply to SMaRT Camp which is a program primarily focused on Math development skills. I feel that this program will benefit me in my future, specifically College. If you can I would like for you to be the one to write a letter of recommendation which will increase my chances of getting into the program.

SMaRT Camp is a program designed to encourage and teach students about how it feels to sleep on campus. It also teaches you math and engineering through activities. This program is meant for students who are considering to become an engineer in the future so it prepares you for college.

In my free time I have been doing many types of community service. I have participated in TKBC(The Kids Breakfast Club), I have cleaned local parks, helped out around Tennyson like the library and the art room, and I am part of a group at Weeks Library called TAG(Teen Advisory Group). As you can see, I am very determined to make my community better and I believe that SMaRT Camp can help me develop skills to help people even more. Experiences like these can be built from and I think SMaRT Camp can build on my experiences.

This letter of recommendation will be due on March 1st and I just need confirmation if you are agreeing to write a letter of recommendation for me by the end of this week. If you have any questions or you have an answer for me call or text me at 510 732 6447.

Sincerely,
Hector Fernandez
